Comments from the President and CEO

Taking
the next
steps

The Group continued to show resilience in the face of the ongoing corona pandemic and ended this challenging year with positive organic sales growth of 1 percent (2) in the fourth quarter, driven by Security Services North America. The negative impact of the corona pandemic on the airport security business remains to be significant, primarily in Security Services Europe. Increased extra sales, focus on helping our clients with their security needs related to the corona pandemic, have offset some of the corona-related sales reductions in the contract portfolio. Organic sales growth for the full year was 0 percent (4).

Security solutions and electronic security sales was 22 percent (22) of total Group sales in the fourth quarter. The installation business within electronic security was negatively impacted by the corona pandemic throughout the year.

The Group's operating margin in the fourth quarter was on par with the preceding year at 5.3 percent (5.3). For the full year the operating margin was 4.5 percent (5.2), negatively impacted by the corona pandemic and the related increased provisioning to reflect the enhanced risk in the business environment. The negative impact was partly offset by cost-saving actions and government grants mostly as a compensation for temporary unemployment costs. The price and wage balance was on par in the year.

The operating result, adjusted for changes in exchange rates, increased by 4 percent in the fourth quarter while it declined by 10 percent over the full year.

The Group delivered a strong cash flow during the year, even when excluding the effects of corona-related government support measures. Supported by the Group's improving financial performance and solid financial position, the Board of Directors decided to reinstate the dividend proposal for 2019 of SEK 4.80 (4.40) per share which was resolved by an EGM in December.

Taking the next steps

At the beginning of the pandemic, we set an ambition to come out of this challenging period stronger and more focused. The corona pandemic presented all of us with an unprecedented challenge in 2020, but the Securitas team faced this demanding situation with great resilience and agility. During 2020, we executed on our transformation programs and took several actions to improve our focus and profitability.

In 2020 we initiated a cost-savings program in the Group, addressing profitability in parts of our business impacted by the corona pandemic. We previously estimated a range of restructuring costs of MSEK 350–500 with a payback period of two years. The first savings began to have an impact in the fourth quarter and will gradually increase going forward. The final amount of restructuring will largely depend on changes related to government grants and the performance of the airport security business. We expect to finalize the program at the end of the second quarter of 2021.

The business transformation in North America and the global IS/IT transformation initiated in 2019 are progressing well and are expected to be finalized according to plan by the end of 2021, in line with achieving

the financial benefits of the programs by 2022. We are now taking the next major step by launching a business transformation program in our two other segments – Europe and Ibero-America. These activities represent significant investments in the execution of our strategy, and we expect to see important benefits as a result. We will enhance the value proposition to our clients and our people. We will be able to benefit more from our scale and from common ways of working. These programs are driven by our strong ambition to change the business mix and to improve our margins.

During 2020, we acquired electronic security companies in eight focus markets. The integration of the five companies acquired from Stanley is progressing well and in December we announced the acquisition of the high-quality FE Moran business in the US. These acquisitions will greatly enhance our offering to our clients and contribute to our ambition to double our security solutions and electronic security business.

We have decided to leave 11 smaller countries where we deem the current and future business opportunities to be limited. We have by now already exited or are close to exiting from nine countries and expect this to be finalized by mid 2021.

While we continue to face high-level of uncertainty related to the corona pandemic at the beginning of 2021, we enter the year stronger and more focused and with a clear agenda for pursuing the next steps of our transformation.

Group development

OCTOBER-DECEMBER 2020

Sales development

Sales amounted to MSEK 26 477 (28 257) and organic sales growth to 1 percent (2). The decline is due to the negative impacts of the corona pandemic through reduced service levels, mainly in the aviation segment, and lower installation sales. Increased extra sales which amounted to 17 percent (14) of total sales offset most of this decline. Security Services North America delivered organic sales growth of 4 percent (2) with positive impacts from the Guarding and Critical Infrastructure Services business units. Security Services Europe had -1 percent (1), negatively impacted by reduced airport security including the previously communicated contract loss in Norway. Security Services Ibero-America had -1 percent (10), a decline primarily related to Argentina, Peru and Spain.

Real sales growth, including acquisitions and adjusted for changes in exchange rates, was 3 percent (3).

Sales of security solutions and electronic security sales amounted to MSEK 5 883 (6 145) or 22 percent (22) of total sales in the fourth quarter. Real sales growth, including acquisitions and adjusted for changes in exchange rates, was 4 percent (7).

Operating income before amortization

Operating income before amortization was MSEK 1 404 (1 497) which, adjusted for changes in exchange rates, represented a real change of 4 percent (-2). The operating income was supported by corona-related government grants and support of approximately MSEK 230 in the quarter. These grants and support measures relate primarily to partial unemployment support where there are increased cost levels due to idle time. The operating income was hampered by increased levels of provisioning of approximately MSEK 80 to reflect the increased risk in the business environment throughout the Group, relating primarily to outstanding accounts receivable.

The Group's operating margin was 5.3 percent (5.3). Security Services North America and Security Services Ibero-America contributed to the operating margin, while Security Services Europe and the Other segment hampered the development. In the segment Other a higher amount of external fees were recognized in the fourth quarter versus a normal run rate. The corona pandemic impacted all business segments to varying degrees, but grants, support measures and short-term cost-saving actions mitigated the negative impact.

Operating income after amortization

Amortization of acquisition related intangible assets amounted to MSEK -79 (-68).

Acquisition related costs were MSEK -47 (-28). For further information refer to note 5.

Items affecting comparability were MSEK -422 (-83), related to the cost-savings program in the Group announced in the second quarter of 2020 and to the previously and newly announced transformation programs. The decided exit from 11 countries resulted in an expected net loss of MSEK -117, also included in items affecting comparability above. For further information refer to Acquisitions and Divestitures on page 10 and note 6.

Financial income and expenses

Financial income and expenses amounted to MSEK -118 (-140). The financial income and expenses were positively impacted by the favorable net debt development and the exchange rates for interest income and expenses.

Income before taxes

Income before taxes amounted to MSEK 738 (1 178).

Taxes, net income and earnings per share

The Group's tax rate was 29.0 percent (26.0). The increase compared to last year is due to a higher full year tax rate and the impact from non-deductible capital losses and impairment of assets relating to the decided exit from 11 countries. The tax rate before tax on items affecting comparability was 25.3 percent (26.3).

Net income was MSEK 524 (872).

Earnings per share amounted to SEK 1.45 (2.38). Earnings per share before items affecting comparability amounted to SEK 2.38 (2.54).

JANUARY-DECEMBER 2020

Sales development

Sales amounted to MSEK 107 954 (110 899) and organic sales growth to 0 percent (4). All business segments were negatively impacted by the corona pandemic, but to some extent offset by increased extra sales which amounted to 16 percent (14) of total sales. Organic sales growth in Security Services North America was 2 percent (4), with the decline mainly attributable to the Electronic Security and Critical Infrastructure Services business units. Security Services Europe had -2 percent (2), with a significant corona-related impact from reduced airport security as well as previously communicated contract terminations. Security Services Ibero-America declined to 2 percent (14), primarily related to Argentina, Peru and Spain.

Real sales growth, including acquisitions and adjusted for changes in exchange rates, was 1 percent (6).

Sales of security solutions and electronic security sales amounted to MSEK 23 478 (23 290) or 22 percent (21) of total sales for the full year. Real sales growth, including acquisitions and adjusted for changes in exchange rates, was 5 percent (10).

Operating income before amortization

Operating income before amortization was MSEK 4 892 (5 738) which, adjusted for changes in exchange rates, represented a real change of -10 percent (3). The operating income was supported by corona-related government grants and support measures of MSEK 780 in 2020, mostly within Security Services Europe. These grants and support measures relate primarily to partial unemployment support where there are increased cost levels due to idle time. The operating income was hampered by increased levels of provisioning of MSEK 530 to reflect the increased risk in the business environment mainly related to employee benefits and the collection of outstanding accounts receivable.

The Group's operating margin was 4.5 percent (5.2). While the corona pandemic impacted all business segments to varying degrees, the main negative impact occurred in Security Services Europe. Continued strategy-related investments at Group level and external fees in the fourth quarter, included under Other in the segment reporting, also impacted the Group's operating margin. Total price adjustments in the Group were on par with wage cost increases in 2020.

Operating income after amortization

Amortization of acquisition related intangible assets amounted to MSEK -286 (-271).

Acquisition related costs totaled MSEK -137 (-62). For further information refer to note 5.

Items affecting comparability were MSEK -640 (-209), related to the cost-savings program in the Group announced in the second quarter of 2020 and to the previous and newly announced transformation programs. The decided exit from 11 countries resulted in an expected net loss of MSEK -117, also included in items affecting comparability above. For further information refer to Acquisitions and Divestitures on page 10 and note 6.

Financial income and expenses

Financial income and expenses amounted to MSEK -500 (-578). The financial income and expenses were positively impacted by the favourable net debt development and the exchange rates for interest income and expenses but also by a non-recurring foreign currency gain that was realized in the third quarter.

Income before taxes

Income before taxes amounted to MSEK 3 329 (4 618).

Taxes, net income and earnings per share

The Group's tax rate was 27.4 percent (27.2). The tax rate before tax on items affecting comparability was 26.4 percent (27.2).

Net income was MSEK 2 416 (3 362).

Earnings per share amounted to SEK 6.63 (9.20). Earnings per share before items affecting comparability amounted to SEK 8.02 (9.61).

Development in the Group's business segments

Security Services North America

Security Services North America provides protective services in the US, Canada and Mexico. The operations in the US are organized in four specialized units – Guarding, Electronic Security, Pinkerton Corporate Risk Management and Critical Infrastructure Services. Guarding includes on-site, mobile and remote guarding and the unit for global and national accounts, as well as Canada and Mexico. There are also specialized client segment units, such as aviation, healthcare, manufacturing and oil and gas.

October-December 2020

Organic sales growth was 4 percent (2). The improvement in organic sales growth was primarily related to the Guarding and Critical Infrastructure Services business units. The business unit Guarding was able to compensate temporarily reduced portfolio sales with increased extra sales, both corona-related. Sales in Critical Infrastructure Services also benefited from corona-related extra sales in the fourth quarter, which included some retroactive billing. Pinkerton Corporate Risk Management contributed to the improvement, while Electronic Security was hampered by the installation business. Extra sales in the business segment amounted to 19 percent (13) of total sales.

Security solutions and electronic security sales represented MSEK 1 948 (2 319) or 17 percent (19) of total sales in the business segment in the fourth quarter.

The operating margin was 6.4 percent (6.1). The improvement related primarily to the Guarding and Critical Infrastructure Services business units. The operating margin in Guarding continued to be supported by the corona-related change in the business mix with an increased share of extra sales. The operating margin in Critical Infrastructure Services was positively impacted by corona-related extra sales referred to above. Pinkerton Corporate Risk Management also contributed to the improvement, as did continued cost-saving measures. The operating income was hampered by increased levels of provisioning to reflect the increased risk in the business environment, relating primarily to outstanding accounts receivable.

The Swedish krona exchange rate strengthened against the US dollar, which had a negative effect on operating income in Swedish kronor. The real change was 12 percent (0) in the fourth quarter.

January-December 2020

Organic sales growth was 2 percent (4). The negative impacts of the corona pandemic on a full-year basis were primarily seen in the Electronic Security and Critical Infrastructure Services business units. Organic sales growth in Guarding was on par with the preceding year, since the business unit was able to compensate temporarily reduced portfolio sales with increased extra sales, both corona-related. The client retention rate was 91 percent (90), excluding the effect of corona-related temporary reductions.

Security solutions and electronic security sales represented MSEK 8 365 (8 885) or 17 percent (18) of total sales in the business segment in 2020.

The operating margin was 5.9 percent (6.2), a decline primarily related to the effects of the corona pandemic with enhanced levels of provisioning to reflect the increased risk in the business environment. The sales decline in the Electronic Security and Critical Infrastructure Services business units also hampered the operating margin, while Guarding was supported as a result of the corona-related change in the business mix with an increased share of extra sales.

The Swedish krona exchange rate strengthened against the US dollar, which had a negative effect on operating income in Swedish kronor. The real change was -2 percent (8) in 2020.

Security Services Europe

Security Services Europe provides protective services across Europe with operations in 27 countries, whereof 15 countries provide airport security. The full range of protective services includes on-site, mobile and remote guarding, electronic security, fire and safety services and corporate risk management. In addition there is a specialized unit for global client contracts.

October-December 2020

Organic sales growth was -1 percent (1), mainly due to the impact of the corona pandemic on airport security. Previously communicated contract loss in Norway also hampered organic sales growth. The negative development was partly offset by increased extra sales, primarily corona-related. Extra sales were 18 percent (17) of total sales in the business segment.

Security solutions and electronic security sales represented MSEK 2 867 (2 881) or 25 percent (24) of total sales in the business segment.

The operating margin was 6.0 percent (6.1). The decline related primarily to the effects of the corona pandemic on airport security. Corona-related government grants in several countries have offset this negative impact to some extent, including related idle-time costs. The operating income was hampered by increased levels of provisioning to reflect the increased risk in the business environment, relating primarily to outstanding accounts receivable.

The Swedish krona exchange rate strengthened against foreign currencies, primarily the euro, which had a negative effect on operating income in Swedish kronor. The real change was -3 percent (-3) in the fourth quarter.

January-December 2020

Organic sales growth was -2 percent (2). The decline was mainly explained by the significant negative impact on airport security due to the corona pandemic that started in March. Organic sales growth was also impacted by the previously communicated contract losses in France, the UK and Norway. A few countries had positive organic sales growth, predominantly Sweden. The client retention rate was 90 percent (90), excluding the effect of corona-related temporary reductions.

Security solutions and electronic security sales represented MSEK 10 758 (10 611) or 24 percent (22) of total sales in the business segment.

The operating margin was 4.6 percent (5.5) and was primarily burdened by the effects of the corona pandemic with a significant impact on airport security and in the form of enhanced levels of provisioning to reflect the increased risk in the business environment. Corona-related government grants in several countries have offset this negative impact to some extent, including related idle-time costs. The operating margin was supported by some of the Nordic countries.

The Swedish krona exchange rate strengthened against foreign currencies, primarily the euro, which had a negative effect on operating income in Swedish kronor. The real change was -17 percent (1) in 2020.

Security Services Ibero-America

Security Services Ibero-America provides protective services in nine Latin American countries as well as in Portugal and Spain in Europe. Airport security is offered in seven countries. The offered services include on-site, mobile and remote guarding, electronic security, fire and safety services and corporate risk management.

October–December 2020

Organic sales growth was -1 percent (10). Organic sales growth declined due to the effects of the corona pandemic primarily on airport security and continued weak performance in Peru. Argentina and Spain showed positive organic sales growth, but lower than last year. Extra sales in the quarter were behind the corresponding quarter in 2019.

Security solutions and electronic security sales represented MSEK 915 (871) or 30 percent (27) of total sales in the business segment, supported by the acquisition of Techco Security in Spain in 2020.

The operating margin was 5.3 percent (4.8) and the improvement related primarily to Spain and Portugal. Spain had a strong development and was further supported by year-end reconciliation of accruals. The operating margin in Peru also improved, but on a weak comparative. Corona-related government support measures in Argentina also supported this improvement.

The Swedish krona exchange rate strengthened against the Argentinian peso and the euro, which had a negative impact on operating income in Swedish kronor. The real change in the segment was 20 percent (21) in the fourth quarter.

January–December 2020

Organic sales growth was 2 percent (14). The impact from the corona pandemic showed a mixed picture in Latin America, with a significant negative impact on airport security in several

countries. Peru reported negative organic sales growth and Argentina had lower organic sales growth compared to the preceding year. Organic sales growth in Spain was 1 percent, on a strong comparative, and declined due to the effects of the corona pandemic as well as of the previously communicated reductions of short-term security solutions contracts. The client retention rate was 93 percent (92) excluding the effect of corona-related temporary reductions.

Security solutions and electronic security sales represented MSEK 3 720 (3 527) or 30 percent (27) of total sales in the business segment, supported by the acquisition of Techco Security in Spain in 2020.

The operating margin was 4.5 percent (4.7) and the decline related primarily to the corona pandemic. However, the operating margin was to some extent supported by corona-related government grants and support measures in certain countries. The operating margin was hampered by enhanced levels of provisioning to reflect the increased risk in the business environment primarily related to the collection of outstanding accounts receivable. The performance in Argentina and Peru has not been satisfactory in 2020 and actions will be taken to improve the profitability in the contract portfolio in both countries. Spain and Portugal displayed resilience throughout the year.

The Swedish krona exchange rate strengthened against the Argentinian peso and the euro, which had a negative impact on operating income in Swedish kronor. The real change in the segment was 3 percent (14) in 2020.

Cash flow

October-December 2020

Cash flow from operating activities amounted to MSEK 1 527 (1 853), equivalent to 109 percent (124) of operating income before amortization.

The impact from changes in accounts receivable was MSEK -166 (-145). Changes in other operating capital employed were MSEK 309 (535).

Free cash flow was MSEK 1 420 (1 428), equivalent to 154 percent (124) of adjusted income.

Cash flow from investing activities, acquisitions, was MSEK -1 291 (-185).

Cash flow from items affecting comparability amounted to MSEK -188 (-106). Refer to note 6 for further information.

Cash flow from financing activities was MSEK -2 329 (-685) due to dividend paid of MSEK -1 752 (0) and a net decrease in borrowings of MSEK -577 (-685).

Cash flow for the period was MSEK -2 388 (452).

January-December 2020

Cash flow from operating activities amounted to MSEK 7 207 (4 902), equivalent to 147 percent (85) of operating income before amortization.

The impact from changes in accounts receivable was MSEK 123 (-239), positively impacted by collections and by the lower organic sales growth. Changes in other operating capital employed were MSEK 2 289 (-277), positively impacted by the timing of payments and provisions made during the year. The postponed timing of payments for payroll

taxes and value added tax in Europe of approximately MSEK 100 and in North America of approximately MSEK 1 400 is a result of various government support measures in relation to the corona pandemic allowing for postponement of payments. The payments in North America are due in 2021 and 2022.

Financial income and expenses paid was MSEK -401 (-443) and current taxes paid was MSEK -862 (-1 191).

Cash flow from operating activities includes net investments in non-current tangible and intangible assets, amounting to MSEK -97 (-320), also including capital expenditures in equipment for solutions contracts. The net investments result from investments of MSEK -2 787 (-3 010) and reversal of depreciation of MSEK 2 690 (2 690).

Free cash flow was MSEK 5 944 (3 268), equivalent to 178 percent (83) of adjusted income.

Cash flow from investing activities, acquisitions, was MSEK -1 801 (-574), of which purchase price payments accounted for MSEK -1 780 (-533), assumed net debt for MSEK 98 (39) and acquisition related costs paid for MSEK -119 (-80).

Cash flow from items affecting comparability amounted to MSEK -405 (-303). Refer to note 6 for further information.

Cash flow from financing activities was MSEK -2 762 (-1 699) due to dividend paid of MSEK -1 752 (-1 606) and a net decrease in borrowings of MSEK -1 010 (-93).

Cash flow for the period was MSEK 976 (692). The closing balance for liquid funds after translation differences of MSEK -204 was MSEK 4 720 (3 948).

Quarterly free cash flow

Capital employed and financing

Capital employed as of December 31, 2020

The Group's operating capital employed was MSEK 8 893 (13 100), corresponding to 8 percent of sales (12), adjusted for the full-year sales figures of acquired units. The reduction is supported by the strong cash flow from operating activities. The translation of foreign operating capital employed to Swedish kronor decreased the Group's operating capital employed by MSEK 1 676.

The annual impairment test of all Cash Generating Units (CGU), which is required under IFRS, took place during the third quarter of 2020 in conjunction with the business plan process for 2021. None of the CGUs tested for impairment had a carrying amount that exceeded the recoverable amount. Consequently, no impairment losses have been recognized in 2020. No impairment losses were recognized in 2019 either.

The Group's total capital employed was MSEK 32 042 (37 140). The translation of foreign capital employed to Swedish kronor decreased the Group's capital employed by MSEK 3 941. The return on capital employed was 13 percent (15).

Financing as of December 31, 2020

The Group's net debt amounted to MSEK 14 335 (17 541). The net debt was positively impacted mainly by the free cash flow of MSEK 5 944 and by translation differences of MSEK 1 342, while it was negatively impacted mainly by

payments for acquisitions of MSEK -1 801 and a dividend of MSEK -1 752, paid to the shareholders in December 2020.

The net debt to EBITDA ratio was 2.1 (2.2). The free cash flow to net debt ratio amounted to 0.41 (0.19). The interest coverage ratio amounted to 9.1 (9.4).

On April 6, 2020, Securitas' existing MEUR 440 and MUSD 550 revolving credit facility (RCF) was replaced with a new facility with 10 key relationship banks. This new credit facility now comprises one tranche of MEUR 938 and matures in 2025 with the possibility to extend to 2027. It was undrawn at December 31, 2020. There was no new debt drawn down in the fourth quarter. A MUSD 40 Floating Rate Note (FRN) was repaid during the quarter. Further information regarding financial instruments and credit facilities is provided in note 8.

Standard and Poor's rating for Securitas was BBB/A-2 with a stable outlook.

Shareholders' equity amounted to MSEK 17 707 (19 599). The translation of foreign assets and liabilities into Swedish kronor decreased shareholders' equity by MSEK 2 599. Refer to the statement of comprehensive income on page 15 for further information.

The total number of shares amounted to 365 058 897 (365 058 897) as of December 31, 2020. Refer to page 18 for further information.

⁶⁾ Deferred considerations have been recognized mainly based on an assessment of the future profitability development in the acquired entities for an agreed period. The net of new deferred considerations, payments made from previously recognized deferred considerations and revaluation of deferred considerations in the Group was MSEK -76. Total deferred considerations, short-term and long-term, in the Group's balance sheet amount to MSEK 295.

All acquisition calculations are finalized no later than one year after the acquisition is made. Transactions with non-controlling interests are specified in the statement of changes in shareholders' equity on page 18. Transaction costs and revaluation of deferred considerations can be found in note 5 on page 23.

Techco Security, Spain and Portugal

Securitas reinforces its leadership position within the electronic security market in Spain through the acquisition of Techco Security, a leading electronic security company. Techco Security offers a comprehensive range of integrated security services including installation, maintenance and remote guarding services as well as access control, electronic alarm surveillance and fire protection, and supports clients through two operations centers in Madrid and Barcelona. The company has approximately 520 employees with a strong footprint across Spain and Portugal. The acquisition was closed and consolidated into Securitas as of January 8, 2020.

Fredon Security, Australia

Securitas has acquired Fredon Security, founded in 2012 as a division within Fredon Group, an Australian engineering and building services company. Fredon Security is specialized in high-end electronic security solutions including system design, engineering, installation, commissioning and maintenance. The company has approximately 110 employees with a strong footprint across Australia's key geographical markets; Melbourne, Canberra, Brisbane, Perth and Sydney, where it is headquartered. Through strong organic growth the company

has established a robust market position in the technology, commercial and government client segments. The acquisition was consolidated into Securitas as of January 9, 2020.

STANLEY Security in Germany, Portugal, Switzerland, Singapore and India

Securitas has acquired STANLEY Security's electronic security businesses in Germany, Portugal, Switzerland, Singapore and India. The acquisition is aligned with Securitas' ambition to double the size of its security solutions and electronic security business and expands Securitas' electronic security footprint and capabilities. The acquired entities provide an integrated electronic security offering to their clients - from design to installation and from maintenance to alarm monitoring - based on a complete portfolio of advanced security solutions such as access control, intrusion, video, fire and integrated systems. The business has approximately 580 highly skilled employees operating in five countries through 20 branch offices out of which 11 are located in Germany. The business also has two alarm monitoring centers, one in Germany and one in Portugal.

Sales of the in-scope business is mainly driven from installation sales, recurring monthly revenue and maintenance services. The acquisition related costs are expected to be MSEK 60, some was recognized in 2020 but mostly in 2021. The acquisition is expected to be EPS accretive as of 2022. The acquisition has been approved by customary regulatory authorities and was closed on November 2, 2020, and was consolidated in Securitas as of the same date.

FE Moran Security Solutions, the US

Securitas has acquired FE Moran Security Solutions, a top 30 alarm monitoring and electronic security systems integration company in the US. The acquisition increases Securitas' density and offerings in the United States' Midwest region and is aligned with Securitas' ambition to double the size of its security solutions and electronic security business.

Founded in 2003, FE Moran Security Solutions provides an integrated electronic security offering - from design to installation and from maintenance to alarm monitoring - and focuses on commercial clients in several Midwestern states across the US, as well as numerous marquee national account clients. Their portfolio includes electronic security services such as intrusion, video, fire and access control systems, as well as a UL-listed, TMA Five Diamond certified alarm monitoring center. The company has an outstanding reputation and is known for providing best-in-class service to its clients. Sales are driven from a sizeable recurring monthly revenue (RMR) base and installation sales.

FE Moran Security Solutions has become part of Securitas Electronic Security, Inc. (SES), and further strengthening Securitas' leadership in the commercial electronic security

industry across North America. SES, like FE Moran, serves the commercial alarm monitoring and systems integration market. The two companies combined further provide a unique specialization in serving large multi-site enterprise-wide national and regional clients.

The acquisition related costs are expected to be MSEK 60, to be recognized mostly in 2021. The acquisition is expected to be EPS accretive as of 2022 and was consolidated in Securitas as of December 16, 2020.

Exit of business operations in eleven countries

Securitas has exited or drawn near to the conclusion of an exit process in nine countries during the fourth quarter, where the present and future business opportunities are deemed to be limited. The countries concerned are Estonia, Egypt, Greece, Latvia, Montenegro, Panama, Paraguay, Slovenia and Sri Lanka. Securitas is planning to exit an additional two countries, with expected timing the first half year 2021. The exit from these business operations has resulted in an expected net loss of MSEK -117, recognized as items affecting comparability in 2020, relating to the capital loss, provisions and associated exit costs. The impact from the exits represents approximately MSEK 460 of Group sales on an annual basis.

Other significant events

For critical estimates and judgments, provisions and contingent liabilities refer to the 2019 Annual Report and to note 11 on page 25. If no significant events have occurred relating to the information in the Annual Report or previous Interim Reports published during 2020, no further comments are made in the Interim Report for the respective case.

Cost-savings program initiated in the Group

Securitas announced and initiated a cost-savings program in the Group during the second quarter, with an estimated range of restructuring costs of MSEK 350-500. The final amount will largely depend on changes related to government grants and the development of the airport security business. As previously announced, the program is expected to be finalized end of the second quarter 2021. The payback period is around two years and the savings will have a gradually increasing positive impact that started in the fourth quarter of 2020.

Dividend and Extraordinary General Meeting

Due to the uncertainty caused by the corona pandemic, the Annual General Meeting resolved, in accordance with the Board's revised proposal, that no dividend should be

distributed. In light of the improving financial performance and solid financial position under a continued prudent approach, the Board proposed to reinstate a dividend proposal for 2019 of SEK 4.80 (4.40) per share which was resolved by an Extraordinary General Meeting on December 9, 2020. The total proposed dividend amounted to 52 percent of net income and 50 percent of net income before items affecting comparability.

Business transformation program launched in Security Services Europe and Security Services Ibero-America

Securitas has announced a business transformation program in Europe and Ibero-America, targeting to increase the operating margin to around 6.5 percent in Security Services Europe and to around 6.0 percent in Security Services Ibero-America, upon completion in 2024. Related to the program, approximately MSEK -1 400 will be recognized as items affecting comparability over the course of the years 2021 to 2023. These costs relate primarily to the impairment of assets, systems integration and organizational restructuring charges. Capital expenditure of approximately MSEK -1 100 will be invested in IT systems over the years 2021 to 2023.

Risks and uncertainties

Risk management is necessary for Securitas to be able to fulfill its strategies and achieve its corporate objectives. Securitas' risks fall into three main categories; contract and acquisition risks, operational assignment risks and financial risks. Securitas' approach to enterprise risk management is described in more detail in the Annual Report for 2019.

In the preparation of financial reports, the Board of Directors and Group Management are required to make estimates and judgments. These estimates and judgments impact the statement of income and balance sheet as well as disclosures such as contingent liabilities. The actual outcome may differ from these estimates and judgments under different circumstances and conditions.

Securitas as well as other companies are currently facing the challenge of the corona pandemic. As disclosed in this full year report, the corona pandemic has negatively impacted the Group's result, and poses an additional challenge when making estimates and judgments. Securitas sees reductions in sales due to reductions in regular service levels mostly related to the aviation segment. These reductions are causing costs for idle time to some extent supported by government grants.

It is currently unclear when regular services levels will return to normal levels and to what extent any costs will be further supported by government grants. Many government grants and other relief measures have also been introduced in a short time frame and include requirements that need to be fulfilled in order to be eligible for the grants. This adds new elements to the judgment in preparing the statement of income and balance sheet as well as disclosures. Further, increased risks are noticed related to the general macro economic environment, throughout the Group and mostly related to employee benefits and collection of outstanding accounts receivable. Further, it is unclear what type of impact the corona pandemic will have on the mid-term economical development of the different markets and geographies in which we operate.

For the forthcoming 12-month period, the financial impact of the corona pandemic as well as certain items affecting comparability, provisions and contingent liabilities, as described in the Annual Report for 2019 and, where applicable, under the heading Other significant events above, may vary from the current financial estimates and provisions made by management. This could affect the Group's profitability and financial position.

Parent Company operations

The Group's Parent Company, Securitas AB, is not involved in any operating activities. Securitas AB consists of Group Management and support functions for the Group.

January-December 2020

The Parent Company's income amounted to MSEK 1 233 (1 449) and mainly relates to license fees and other income from subsidiaries.

Financial income and expenses amounted to MSEK 1 067 (2 209). The decrease compared with last year is mainly explained by lower dividends received from subsidiaries. Income before taxes amounted to MSEK 1 280 (2 553).

As of December 31, 2020

The Parent Company's non-current assets amounted to MSEK 45 822 (46 157) and mainly comprise shares in subsidiaries of MSEK 44 233 (43 911). Current assets amounted to MSEK 4 052 (5 944) of which liquid funds accounted for MSEK 151 (1 596).

Shareholders' equity amounted to MSEK 28 999 (29 276). A dividend of MSEK 1 752 (1 606) was paid to the shareholders in December 2020.

The Parent Company's liabilities and untaxed reserves amounted to MSEK 20 875 (22 825) and mainly consist of interest-bearing debt.

For further information, refer to the Parent Company's condensed financial statements on page 26.

Review Report

(Translation of Swedish Original)

Report of Review of Interim Financial Information prepared in accordance with IAS 34 and chapter 9 of the Annual Accounts Act.

Introduction

We have reviewed this report for the period January 1, 2020 to December 31, 2020 for Securitas AB. The Board of Directors and the President and CEO are responsible for the preparation and presentation of this full year report in accordance with IAS 34 and the Swedish Annual Accounts Act.

Our responsibility is to express a conclusion on this full year report based on our review.

Scope of Review

We conducted our review in accordance with the International Standard on Review Engagements ISRE 2410, Review of Interim Report Performed by the Independent Auditor of the Entity. A review consists of making inquiries, primarily of

persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing, ISA, and other generally accepted auditing standards in Sweden. The procedures performed in a review do not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the full year report is not prepared, in all material respects, in accordance with IAS 34 and the Swedish Annual Accounts Act, regarding the Group, and with the Swedish Annual Accounts Act, regarding the Parent Company.

Notes

NOTE 1 Accounting principles

This full year report has been prepared in accordance with IAS 34 Interim Financial Reporting and the Swedish Annual Accounts Act. The full year report comprises pages 1-27 and pages 1-14 are thus an integrated part of this financial report.

Securitas' consolidated financial statements are prepared in accordance with International Financial Reporting Standards (IFRS) as endorsed by the European Union, the Swedish Annual Accounts Act and the Swedish Financial Reporting Board's standard RFR 1 Supplementary Accounting Rules for Groups. The most important accounting principles under IFRS, which is the basis for the preparation of this full year report, can be found in note 2 on pages 75 to 81 in the Annual Report for 2019. The accounting principles are also available on the Group's website www.securitas.com under the section Investors - Financial data - Accounting Principles.

The Parent Company's financial statements are prepared in accordance with the Swedish Annual Accounts Act and the Swedish Financial Reporting Board's standard RFR 2 Accounting for Legal Entities. The most important accounting principles used by the Parent Company can be found in note 42 on page 131 in the Annual Report for 2019.

Adoption and impact of new and revised IFRS 2020

As stated in the Annual Report 2019, Securitas has early adopted the amendments to IFRS 9 Financial Instruments related to hedge accounting which came into effect as of January 1, 2020. The amendments have had no impact on the Group's financial statements.

None of the other published standards and interpretations that are mandatory for the Group's financial year 2020 have had any impact on the Group's financial statements.

Introduction and effect of new and revised IFRS 2021 and onwards

Securitas has adopted phase 2 of the amendments to IFRS 9 Financial Instruments related to the IBOR reform that came into effect on January 1, 2021. Phase 2 addresses the accounting for effects on the financial statements due to the IBOR-reform, including the effects of changes to contractual cash flows or hedging relationships that may arise as a consequence of the interest rate benchmark reform. The amendments ensure that there is no impact on the Group's financial statements due to the IBOR reform.

None of the other published standards and interpretations that are mandatory for the Group's financial year 2021 are assessed to have any impact on the Group's financial statements.

Usage of key ratios not defined in IFRS

For definitions and calculations of key ratios not defined in IFRS, refer to notes 3 and 4 in this full year report as well as to note 3 in the Annual Report 2019.

Guarding services

This comprises on-site and mobile guarding, which is services with the same revenue recognition pattern. Revenue is recognized over time, as the services are rendered by Securitas and simultaneously consumed by the customers. Such services cannot be reperformed.

Security solutions and electronic security

This comprises two broad categories regarding security solutions and electronic security.

Security solutions are a combination of services such as on-site and/or mobile guarding and/or remote guarding. These services are combined with a technology component in terms of equipment owned and managed by Securitas and used in the provision of services. The equipment is installed at the customer site. The revenue recognition pattern is over time, as the services are rendered by Securitas and simultaneously consumed by the customers. A security solution normally constitutes one performance obligation.

Electronic security consists of the sale of alarm installations comprising design and installation (time, material and related expenses). Revenue is recognized as per the contract, either upon completion of the conditions in the contract, or over time based on the percentage of completion. Remote guarding (in the form of

alarm monitoring services), that is sold separately and not as part of a security solution, is also included in this category. Revenue recognition is over time as this is also a service that is rendered by Securitas and simultaneously consumed by the customers. The category further includes maintenance services, that are either performed upon request (time and material) with revenue recognition at a point in time (when the work has been performed), or over time if part of a service level contract with a subscription fee. Finally there is also a to a limited extent product sales (alarms and components) without any design or installation. The revenue recognition is at a point in time (upon delivery).

Other

Other comprises mainly corporate risk management services that are either recognized over time or at a point in time as well as other ancillary business.

Other operating income

Other operating income consists in its entirety of trade mark fees for the use of the Securitas brand name.

NOTE 4 Definitions and calculation of key ratios

The calculations below relate to the period January-December 2020.

Interest coverage ratio

Operating income before amortization (rolling 12 months) plus interest income (rolling 12 months) in relation to interest expenses (rolling 12 months).
Calculation: $(4\,892 + 31) / 542 = 9.1$

Free cash flow as % of adjusted income

Free cash flow as a percentage of adjusted income (operating income before amortization adjusted for financial income and expenses, excluding revaluation of financial instruments, and current taxes).
Calculation: $5\,944 / (4\,892 - 500 - 1 - 1\,048) = 178\%$

Free cash flow in relation to net debt

Free cash flow (rolling 12 months) in relation to closing balance net debt.
Calculation: $5\,944 / 14\,335 = 0.41$

Net debt to EBITDA ratio

Net debt in relation to operating income after amortization (rolling 12 months) plus amortization of acquisition related intangible assets (rolling 12 months) and depreciation (rolling 12 months).
Calculation: $14\,335 / (3\,829 + 286 + 2\,690) = 2.1$

Operating capital employed as % of total sales

Operating capital employed as a percentage of total sales adjusted for the full-year sales of acquired and divested entities.
Calculation: $8\,893 / 108\,832 = 8\%$

Return on operating capital employed

Operating income before amortization (rolling 12 months) plus items affecting comparability (rolling 12 months) as a percentage of the average balance of operating capital employed.
Calculation: $(4\,892 - 640) / ((8\,893 + 13\,100) / 2) = 39\%$

Return on capital employed

Operating income before amortization (rolling 12 months) plus items affecting comparability (rolling 12 months) as a percentage of closing balance of capital employed.
Calculation: $(4\,892 - 640) / 32\,042 = 13\%$

Net debt equity ratio

Net debt in relation to shareholders' equity.
Calculation: $14\,335 / 17\,707 = 0.81$

ABOUT SECURITAS

Securitas has a leading global and local market presence with operations in 56 countries. Our operations are organized in three business segments: Security Services North America, Security Services Europe and Security Services Ibero-America. We also have operations in Africa, the Middle East and Asia, which form the AMEA division. Securitas serves a wide range of clients of all sizes in a variety of industries and segments. Security solutions based on client-specific needs are built through different combinations of on-site, mobile and remote guarding, electronic security, fire and safety, and corporate risk management. Securitas clients' are found in all different industries and they are of all sizes. We adapt our security solutions based on the risks and needs of each client through increased client engagement and continuously enhanced knowledge. Securitas is listed in the Large Cap segment at Nasdaq Stockholm.

Group strategy

At Securitas, we are leading the transformation of the security industry by putting our clients at the heart

of our business. We solve our clients' security needs by offering qualified and engaged people, in-depth expertise and innovation within each of our protective services, the ability to combine services into solutions and by using data to add further intelligence. To execute on our strategy to become the intelligent protective services partner, we are focusing on four areas: empowering our people, client engagement, protective services leadership and innovation, and efficiency.

Group financial targets

Securitas has three financial targets:

- An annual average increase in earnings per share of 10 percent
- Net debt to EBITDA ratio of on average 2.5
- An operating cash flow of 70 to 80 percent of operating income before amortization

Securitas has also set a strategic transformation ambition – to double our security solutions and electronic security sales by 2023, compared with 2018.
